CLEARBAC 15
(Act5GNR529/245044/040/0854)
Disinfectant liquid

PRIMARY APPLICATION

Clearbac 15 is formulated for use as sanitizing agent in washrooms, factory floors and food preparation areas. Clearbac 15 has excellent residual sanitizing properties combined with good cleaning ability.

APPLICATION PROCEDURE

Clearbac 15 may be applied by spray, mop, brush, rinse or flush for both sanitizing and deodorizing purposes. Surfaces should be exposed to working solutions for at least two minutes.

- | | |
|------------------------------|---|
| General Sanitizing: | Dilute Clearbac 15- 1-part concentrate to 10 parts water. |
| Intensive Sanitizing: | Pre-clean heavily soiled surface with an appropriate degreaser. Dilute Clearbac 15- 1part concentrate to 5 parts water and wash area to be sanitized. Rinse with fresh water. |

Refer to MSDS for Safety and Handling precautions.
